If you are unable to keep your appointment, please contact our office at least 24 hours in advance so we may offer that opening to someone else with a healthcare need.

Understanding Your Insurance & the Referral Process

The insurance plan you have selected is a HMO/managed care plan.

1. Your Primary Care Provider (PCP) will be able to see the total picture of your overall health. This allows your provider to make the best decisions in managing your health and well-being.
2. While your Primary Care Provider (PCP) can provide most of your care, if you need a specialist, your PCP manages the care you receive from these healthcare specialists within the network.
3. Your Primary Care Provider (PCP) needs to issue a referral for you before you see any specialists.
4. Your Primary Care Provider (PCP) will choose a specialist that will best suit your needs within your HMO Network.
5. Within the HMO, there are a select number of Providers that have demonstrated outstanding care and improved outcomes.
6. Unlike PPO plans, care under an HMO plan is covered only if you see a provider within that HMO's network.
7. The referral process serves as a way for your PCP and your specialist to communicate with each other. When a referral is issued for you to see a specialist, your PCP will inform the specialist of the reason(s) for the referral, as well as the goal(s) for the visit. In other words, your PCP will help coordinate your visit; the referral helps ensure you receive the proper care when seeing a specialist.

Thank you for joining our Practice!

Advance Directive

What is an Advance Directive?

It is a statement which tells your doctor and family what care you would like to have when you are not able to make those decisions because of the seriousness of your injury or illness.

There are two kinds of advance directives:

- A Living Will
- Durable Power of Attorney for Health Care

A Living Will – What is it?

It is a statement that lets you tell your doctor and family your wishes if there were no hope for your recovery and you become unable to make your own decisions. An example of this would be whether to continue to use a breathing machine to keep you alive if you were in a permanent coma following an automobile accident.

Durable Power of Attorney for Health Care – What is it?

It is a statement in which you appoint a person to make medical judgement(s) for you if you become unable to make those decisions for yourself. That person should be someone you trust to make health decisions like the ones you would make yourself if you were able. Usually that person would be a close relative or close friend.

Is one better than the other?

They are different and are used for different things so they both are good. These statements are to help your family and your doctor make decisions concerning your healthcare at a time when you are not able to. You may use one, or both of these forms of advance directives to provide direction for your medical care. You may combine them into a single statement that appoints a person to make medical decisions for you but also tells that person of your wishes if there is no expectation for reasonable survival.

Can I change my mind?

Yes! You can change your mind or cancel your statement at any time. Changes should be written, signed and dated. You can also make your change of opinion by telling someone (an oral statement).

Who should make out an Advance Directive?

Because we may have a serious illness or injury at any age, all adults should have an advance directive.
